# The Precautionary Boil Water Notice for Walled Lake has ended

**March 11, 2026**

The precautionary boil water advisory issued on March 7, 2026 for Walled Lake ended on March 11, 2026.

There is no need to boil water before using it for consumption if you are a resident or business in Walled Lake.

Area residents are asked to limit outdoor water usage until the final repair is completed by the Great Lakes Water Authority.

Please take the following steps after the advisory:

- Turn on your tap slowly and run the water to flush water pipes for five minutes.
- Empty your automatic ice maker completely and discard the ice made during the advisory period; then, run a few cycles of ice production and throw those batches away as well to fully flush the water line in the ice maker before using the ice again.

Boil water notice information and frequently asked questions are available on our website at: www.oakgov.com/water/notifications.
