Building "Use" Change Form

Date: _____ Site Address: _____

The Building Code of the State of Michigan has different code requirements for different types of building uses. Each building, upon completion of construction, must receive a 'Change of Occupancy' from the City Building Official certifying, essentially, that the building is approved for the intended use(s).

Should the intended use of the building change (e.g. different tenant with a different business), the City's Building Official, Zoning Administrator and Fire Marshall must review the building plans and zoning requirements to determine if the revised use of the building meets minimum requirements for that particular use of if an adjustment to the building or zoning is needed.

This form is a request for a building use review and approval from the City's Building Official, Zoning Administrator and City's Fire Marshall.
